Request for Amendment to Contract RD-71, RR-11AA/EB Receiver.

1. The Air Force has indicated considerable interest in the development of the RR-11AA/EB transistorized receiver and has requested that two each units of the complete receiver be delivered to them. However, in their request they asked that the AA/EB tuning heads be packaged in a single case. Subsequent to this expression of interest, we asked [ ] to prepare a proposal which would serve as a guide in determining the amount of funds which would be required for the purchase of such a unit from us, as all procurement would be accomplished through this Agency. Attachment (1) is the [ ] proposal in answer to this request.

2. It is the Air Force's intent to accept Item 2 and Item 3, modified, of this attachment. It must be noted first that this proposal is dated 20 October 1955 and secondly that Item 3, Option A, specifies a quantity of three of these repackaged receivers. Our cognizant engineers have recently contacted the [ ] who have stated that this proposal is still in effect, provided the amendment can be executed not later than 1 April 1956 and further that the cost of two receivers will be two-thirds that indicated for three receivers under Option A of Item 3.

3. Attachment (2) is Requisition No. MSB 56-302 in the amount of \$30,160.00 chargeable to Allotment No. 6-7995-50. Through agreements established between the Controller and the Department of the Air Force, the Air Force will reimburse this Agency for the cost of these items. The reference which describes the equipment desired by the Air Force is a memorandum from Wright Air Development Center, Directorate of Development, Communication and Navigation Laboratory, Exhibit WCLN-1302 of 17 January 1956, entitled Commercial Radio Sets for Air Rescue Use, Paragraph 3.3.
